### Suggested Items:

- 1 Box of Tissue
- Baby Wipes/Wet Ones (for clean hands!)
- Large and Medium ziplock bags
- Large lunch bag (children often have difficulty fitting containers back into themed rectangular lunch bags which results in broken zippers)
- **Large** backpack (It may seem silly to buy such a big backpack for such little bodies, but by the time they try to pack their message bags, lunchbags, water bottles, extra clothes and outerwear (ie splashpants, hat), trust me - they will fill it!)

### Helpful hints and teacher tips:

- Please provide all supplies unlabeled in a bag, on or before the first day of school. Supplies will be separated and stored in the classroom for replacement at the beginning of each term.
- Please do not purchase themed supplies. Fancy pencils and folders can be distracting and are typically of lower quality when compared to suggested supplies.
- This supply list is created with specific purposes in mind, so it is more beneficial for your child if they are able to provide the specific colours and materials on the list.
- All non-classroom supplies: bags, clothing, containers and shoes should be labeled prior to coming to school
- The brand names listed have come from having spent years in primary classrooms and many experiences providing insight into which supplies work the best/last the longest for your child's use = less requests for replacement/restocking from families throughout the year.
- Looking forward to meeting you in September! Enjoy your summer!
